Vitor Ferreira Viana

Full Stack Developer

Francisco Beltrão, PR, Brazil
vitorferreiraviana@alunos.utfpr.edu.br
github.com/VitorFerreiraCode
vitorferreiracode.github.io

Driven by challenges and by the will to build things with real impact. Full stack developer with professional experience in **Java** and **PHP** and my own systems in production with **Next.js, NestJS, PostgreSQL and Docker**, including Pix and Mercado Pago payments. Founded and led a junior enterprise with 45 members. I work with automated tests, CI/CD, documented decisions and AI-assisted development under my own process.

EXPERIENCE

Axdoc — Junior Developer III · on-site, Francisco Beltrão — Jan 2026 – present

- Development of an electronic document management system (EDMS) in Java with VRaptor and JSP, PostgreSQL and Docker.
- New features, integrations with partner web services and maintenance of the system in production.
- Production of video tutorials for the product, with captions, highlights and narration.

TriXX Software — Junior Developer I · freelance, remote — Jan 2025 – Mar 2026

- Web projects with PHP, PostgreSQL, JavaScript and Docker.
- Designed and implemented solutions focused on process optimization and user experience.

DNS Marketing Agency — Junior Developer I · freelance, remote — Aug 2025 – Jul 2026

- Websites and projects built with WordPress and MySQL.

PROJECTS AND LEADERSHIP

sabermais (formerly eClass) — Developer · undergraduate thesis — Nov 2025 – present

- Multi-tenant learning management system, born as an educational system for the Information Systems program at UTFPR and now in production.
- Per-institution data isolation with PostgreSQL Row-Level Security; 340+ end-to-end tests in CI; continuous deployment.
- AI features for teachers and students with anonymized data; a study-strategy profile (LASSI) that adapts studying to each student and guides the teacher. Basis of my thesis research on educational equity.

Next.js · NestJS · TypeScript · Prisma · PostgreSQL · Docker · GitHub Actions

TypeX Junior Enterprise — Founder and President — Jan 2025 – Jul 2026

- Led a team of 45 members, including 7 directors, in strategic, administrative and operational management.
- Over BRL 10,000 in revenue in the first year; awards: EJ Iniciativa (Vértice 2025) and EJ Aspirante (Vendaval 2025).

Projeto Transformar — Research scholarship, Fundação Araucária — Aug 2024 – Mar 2026

- Turned IPTV boxes into Armbian mini-computers and built computer labs for under-resourced schools.
- IPTV clusters, power banks from e-cigarette batteries, and UPS units.

Own products — development and sales — 2025 – present

- **Discord sales bot**, in production with paying clients: multi-tenant dashboard, catalog, Pix/Mercado Pago, scheduling with reminders and reviews (Next.js, discord.js, PostgreSQL).
- **f1sul.com.br**: online store with Mercado Pago, promotions and reviews (Express, PostgreSQL).
- **PGRS+**: platform that automates solid-waste management plans (PGRS) for environmental engineers (Laravel, PostgreSQL), in development.
- **AI bot** that builds Discord servers from a conversation (TypeScript, LLMs), open source.

TechWeek 2026 — Security workshop instructor 2026

- "The Invisible War: Cheats vs Anti-cheats" and "Malware: infection, persistence and data theft", with an educational and defensive focus.

EDUCATION

Federal University of Technology – Paraná (UTFPR) — B.Sc. in Information Systems · Francisco Beltrão Aug 2024 – Jan 2028 (expected)

SKILLS

Back-end	Java (VRaptor, JSP, Spring Boot), PHP (Laravel), Node.js and TypeScript (NestJS, Express)
Front-end	Next.js, React, Angular, JavaScript, HTML, CSS, Tailwind, WordPress
Data	PostgreSQL (Row-Level Security), MySQL, Prisma, Drizzle
Infra and DevOps	Docker, Linux, Apache, GitHub Actions, Railway; networking (switches, APs, ports), FTP, SSH; Linux, macOS and Windows
Quality and AI	Automated testing (Vitest, Playwright), CI/CD, ADRs; AI-assisted development with documentation, project memory and review

AWARDS

EJ Iniciativa — Vértice 2025

EJ Aspirante — Vendaval 2025
