SUMMARY

Full stack developer who builds systems from the database to the screen. I work in a team with Java on a system used by companies, and I built on my own two products that are live in production, one of them with paying customers. Information Systems student at UTFPR (Brazil); I founded and led a junior enterprise and coordinated events with hundreds of students.

EXPERIENCE

Software Developer · Axdoc Jan 2026 – present · on-site

I develop and maintain, as part of a team, a Java electronic document management system (EDMS) used by companies, running in production. I also record the product's video tutorials.

Developer · TriXX Software Jan 2025 – Mar 2026 · remote freelance

Web systems with PHP, PostgreSQL, JavaScript and Docker, focused on streamlining processes and improving the user experience.

Developer · DNS Agência de Marketing Aug 2025 – Jul 2026 · remote freelance

Websites and web projects with WordPress and MySQL.

OWN PRODUCTS

VeenuX Payments · live, with customers vnxbot.mivsistemas.com/conheca

A platform where e-sports coaches sell lessons inside Discord: a store with Pix and cards, scheduling with reminders, a student area and AI support. It became a business with a free trial and monthly billing. I build and run it on my own: product, code, billing and support. Next.js, TypeScript, PostgreSQL, Mercado Pago.

SaberMais+ · capstone project, live private code

A learning platform that identifies each student's study profile, builds a study plan for them and shows teachers where the class needs help. Ready for multiple institutions, with over 340 automated tests. Next.js, NestJS, PostgreSQL, AI.

EDUCATION

Information Systems · UTFPR

Francisco Beltrão campus, Brazil · expected graduation: second half of 2028.

Fundação Araucária scholarship Aug 2024 – Mar 2026

Projeto Transformar: seized devices turned into computers for under-resourced schools.

AWARDS AND COMPETITIONS

4th place · Via do Leite Hackathon (2025)

4th place · HackLab (2024)

EJ Iniciativa (Vértice 2025) and **EJ Aspirante** (Vendaval 2025), with TypeX

COURSES

Agile Methodologies · workshop with Adenilson, support coordinator at Cresol

ExponencIA · AI course by Tulio Bittencourt (harnesses, agents, skills)

SPOKEN LANGUAGES

Portuguese (native) · English (B1) · French (B1)

LEADERSHIP AND ENTREPRENEURSHIP

Founder and President · TypeX Junior Enterprise

Jan 2025 – Jul 2026. Led 45 members and 7 directors; over BRL 10,000 in revenue in the first year.

Coordinator · TechWeek 2025

200+ students. Led the organizing team, brought in speakers, closed sponsorships and partnerships, and built the schedule and promotion. Moderated the talk by Julien Decultot, CFO of LVMH.

Organizing team · TechWeek 2026

150+ students. Helped with organization and decisions, and taught two information security workshops.

SKILLS

Languages: Java, TypeScript, JavaScript, SQL, PHP

Web: Next.js, React, NestJS, Node.js, Laravel

Data: PostgreSQL, MySQL, Prisma

Delivery: Git, Docker, automated tests, cloud deployment

Also: AI and agents, payments (Pix, Mercado Pago)
